

Your inspection report. Your next steps.

Turn the findings you choose into a repair checklist with locations, photos, and questions for your next conversation.

1. See a fictional example.
2. Open your PDF privately on your device, or paste selected findings.
3. Edit your questions and print your checklist.

Keep your original inspection report. Confirm findings, timing, and professional evaluation with your inspector. HomeScope organizes information; it does not diagnose conditions or certify repairs. Saving and sharing are optional. We do not sell your information to contractors.
